Citroen Jumper Engine Problems

The GS is a front-engine, front-drive, four or five door, five passenger family car manufactured and marketed by Citroën in two series: for model years 1970-1979 in fastback saloon and estate bodystyles; and subsequently as the GSA for model years 1980-1989 in hatchback and estate body styles — the latter after a facelift. Combined production reached approximately 2.5 million.

Because your heater relies on engine coolant, engine's cooling system must also be up to snuff or you'll be shivering on the drive to work. A thermostat that's stuck open won't allow the engine to maintain a minimum operating temperature and you won't have hot coolant flowing through the heater core.
