It provides the same navigation features as the embedded GPS system but it is presented in a much more realistic way, with an FMC like in real airliners. For an optimal experience, EasyFMC should be used in an aircraft panel that includes a flight plan display, such as the Airbus A321 or the Boeing 737-800 in FSX.

Manage your Addons. The main interface, the Addon List, is where you see all your mapped addons. A mapped addon is an addon that the software has been able to locate on your system, which also entails that it has mapped a path to its data folder. The addons in this list can be updated, backed up or restored from backup, either individually or in bulk using the buttons above the list.
