Interesting that April, November, and December are statistically very bullish times while August and September are bearish on average for stocks. You can really see why there is the old saying: "Sell in May and go away." and October through April is where the bulk of stock market returns come from historically.

Best and Worst Months for the Stock Market | New Trader U

Gold looked just as sleepy, with a gain of just \$5 in thin trading. Don't be fooled by quiet markets. According to my hedge-fund friend, some of the biggest funds have been accumulating silver, presumably before they allow all hell to break loose in the form of a short squeeze.
