If you've asked a good question, edited it with status and progress updates, and still are not receiving answers, you can draw attention to your question by placing a bounty on it.. A bounty is a special reputation award given to answers. It is funded by the personal reputation of the user who offers it, and is non-refundable. If you see a question that has not gotten a satisfactory answer, a ...

What is a bounty? How can I start one? - Help Center ...

Notice that the new position is the old position plus the time interval ϵ times the velocity. But the velocity when? The velocity at the beginning of the time interval is one velocity and the velocity at the end of the time interval is another velocity. Our improvement is to use the velocity halfway between. If we know the speed now ...

The Feynman Lectures on Physics Vol. I Ch. 9: Newton's ...

In theory, one could generate function implementations that are named apart and called by compiled TypeScript (e.g. `createFeatureLayer_1` and `createFeatureLayer_2`) and `createFeatureLayer` could then determine which one to call based upon the contents of arguments for interoperation with vanilla JavaScript. - Thomas S. Trias May 19 '14 at 18:27
