### Power Mac G5 Disassembly Guide

My G5 was cutting out in the middle of use, then coming back on a few seconds later. I believe the cause was extremely dirty power supply fans. I'm glad I took it apart so I could really clean everything, but in a pinch try blowing compressed air into just the bottom, front & back, while using a vacuum at the other end.

Some time back, I did two posts on the apparent death, and then partial recovery, of my much loved Power Mac G5 Quad. In A Casualty on the Front Lines I described discovering the machine one day with its fans running at full blast, and the CPU temperature meter hovering in the 80's C. I shut it down immediately, assumed rather too quickly that it was done for and deduced that there was no ...
