Rather than searching for stereotypical norms, liberation psychologies place stress on identifying, supporting, and nurturing the psychological attempts of individuals and groups alike to re-author their own sense of identity. This requires a critical analysis of oppressive power relations, including those within psychology itself.

Introduction - Liberation Theology

Liberation psychology involves the application of psychology in a participatory manner for the purposes of undertaking transformative action and advancing social justice. Liberation psychology is an applied psychology with well developed theoretical concepts and principles of practice.
